**To:** Weslee Copeland [weslee.copeland@tceq.texas.gov]  
**Subject:** Texas Commission on Environmental Quality Air Monitoring Network Announcements Update

You are subscribed to Air Monitoring Network Announcements for Texas Commission on Environmental Quality. This information has recently been updated, and is now available.

In accordance with federal regulations, a demonstration document supporting the Texas Commission on Environmental Quality (TCEQ) proposed exceptional event flags for El Paso PM<sub>10</sub> data for 2017 and 2018 is provided through the link below for public review and comment. There are two PM<sub>10</sub> proposed exceptional event flags for data collected at the Socorro Hueco monitoring site on two separate days in 2017 and 2018. Both of the proposed flags are for high wind regional blowing dust events that are described in more detail in the demonstration document.

The TCEQ is accepting comments on the proposed flags and will address and forward these comments to the EPA for consideration. The EPA will review this demonstration document along with any comments received and decide whether to accept or reject each proposed flag. The data with flags where EPA concurs will be removed from consideration for determinations of compliance with the PM<sub>10</sub> NAAQS.

Comments should be submitted by e-mail to [monops@tceq.texas.gov](mailto:monops@tceq.texas.gov) with "PM-FLAGS" as the subject. Comments will be taken until 5 p.m. on November 11, 2019.
